# A UNIQUE WAY OF TRAVELING!

A study holiday in Italy

**TILA**  
Think Italian Live Italian

## Summer program in Italy

There are unique journeys which are worthy a presentation. It deals with study vacation tours, short in duration, but consistent in nature since the students are exposed in presence to Italian language, in everyday life and culture through art visits and other similar experiences. Italy, as somebody says, is an open air museum!

TILI offers this great opportunity to meet the Italian life as a whole thanks to its summer program, which can be tailored to each student other than Italian. More than this, everyone can choose his/her own educational path according to his/her interests, curiosities or future career. Art, Literature, Performing Arts, Music and Poetry are the four proposals of the school.

A real journey to discover Italy and its beauties, an adventure to live with old and new friends with who to share experiences and opinions in a relaxed and well-being atmosphere in perfect harmony with what offered in his/her own school.

The study vacations last two weeks including travel, with 13 nights in Rimini according to the calendar below.

Schools, families, and individual participants can choose their preferred period from the six proposed; when registering, students can also choose to combine two consecutive periods.

## RIMINI, LOCATION OF THE SUMMER SCHOOL

The study vacation is held in Rimini, a very welcoming historic seaside city full of life where “the Italian language is like the sand on the beach: soft, warm, and welcoming, capable of making us feel at home.” The study vacation in Rimini combines both the scholastic dimension and that of fun and everyday life in a harmonious, engaging way for students.

The study vacation is held in Rimini, a very welcoming historic seaside city full of life where “the Italian language is like the sand on the beach: soft, warm, and welcoming, capable of making us feel at home.” The study vacation in Rimini combines both the scholastic dimension and that of fun and everyday life in a harmonious, engaging way for students.

Rimini is in a strategic position for visiting places of art and culture, landscapes and territories full of charm, art and history, and traditions that are hospitable by their very nature.

## FEATURES OF THE STUDY VACATION

### GROUP LEVEL

Each class can be made of either same level or different one in terms of language competence, according to the students' overall preparation.

### ENTRY TEST

At the on-line registration each student is required to do a short entry test, which can provide his/her competence with the language ( beginner, intermediate, advanced). Then he/she is admitted to a group which fits his/her abilities and skills with a dedicated program.

### A TAILORED STUDY VACATION

The study vacation is open also to the people who want either to start learning Italian or to the ones who are more interested in Italian culture and Art and only need a “survival kit” for communication, but always in a friendly and facilitating context, which will help students verify their real interest for the language as well.

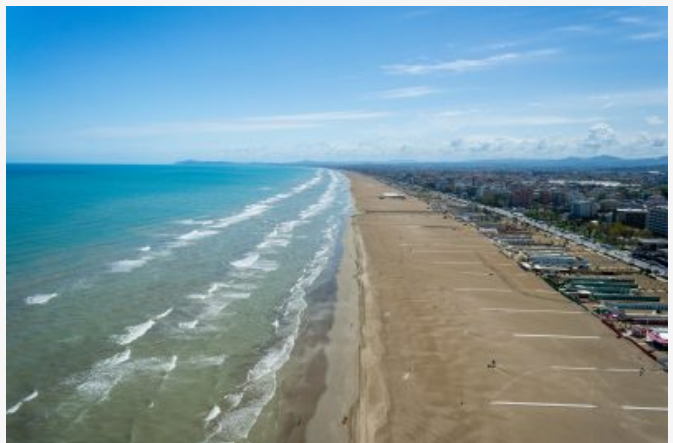

### STUDENT NUMBER

Each group is composed of max 15 students with a personal bilingual teacher.

### TEACHING MATERIALS

All the students are equipped with a personal bag filled with innovative and methodologically advanced learning materials.

*A two-week  
study holiday  
in Italy*

## The organization

The study vacation group participants stay in comfortable four-star hotels near the beach, so that after lessons they can also enjoy the seaside and all the scheduled events. Students eat a hearty breakfast in the hotel every morning.

The hotel also provides a light packed lunch to be eaten at school or during day trips.

Dinner is at the hotel with typical Italian menus specially designed for the students to taste and learn about the variety of Italian food.

THREE SPECIAL DINNERS are planned in restaurants in Rimini to welcome them, mid-vacation, and for a pre-departure farewell.

### School and Teachers

The lessons are held in a highly prestigious building with historical value in Rimini: Palazzo Buonadrata. The classrooms have appropriate equipment for the use of technology that allows video projections and online connections to the learning platforms offered. The classrooms therefore combine aspects of modernity and topicality with those of an environmental setting that is an expression of the highest typically Italian cultural manifestation.

The teachers are highly qualified and trained in teaching Italian Language and Culture using the TILL methodology. Each group of 15 students is assigned a bilingual teacher and every three groups has a teacher specialized in the chosen subject area:  
MUSIC AND PHOTOGRAPHY – ART – MOVIES AND THEATER – LITERATURE

A Group Leader works with the team of teachers, taking care of all the tour-related matters and entertainment, as well as being a reference point for all the students' needs. The teaching team is supervised and led by a Director.

### Activities

Students are mostly given a choice of activities in the afternoon hours, all particularly engaging and interesting: PHOTOGRAPHY, PAINTING, POETRY, OR SINGING COMPETITION  
MUSICAL AUDITION  
COOKING WORKSHOP: a meaningful, aggregating, and characteristic experiential moment of Italian-ness.

Consultation in the library of books and journals to consolidate the spirit of research that contributes to increasing knowledge of Italy in its varied and multiple manifestations and expressions.

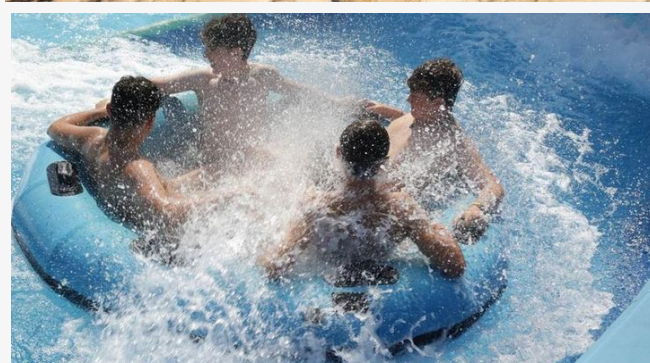

### Leisure

Leisure activities are particularly favored by the area where the summer school is located.

Free and organized time for seaside life with:  
BEACH VOLLEYBALL TOURNAMENT  
STROLLS IN THE CITY

Individual leisure and entertainment choices coordinated by the group leader:  
TRIP TO AQUAFAN IN RICCIONE  
TOUR ROME ON A SIGHTSEEING BUS

## Edu-Cultural Journeys

A keen exploration of Italian territories to understand local traditions to really Think Italian Live Italian (TILI).

The one day excursions will be offered in accordance with the cultural path chosen by each student. In short he/she will take part in:  
Journeys focused on spirituality (for everybody) with attendance to some religious ceremonies and guided visit to the Vatican Museums, Rome.  
Journeys in the local neighborhood (for everybody) in order to get to know local traditions and feasts.  
Virtual tour to three main cultural sites (for everybody) to learn more about Italian art and beauty via an online vision.  
Two guided tours related to the specific cultural path, previously chosen by each student.
